

POWERplus[®]

COMPACT ETFE

SOLAR CHARGER

USB 5V OUTPUT

GIBBON

POWERplus® Gibbon

Compact ETFE Solar Charger USB 5V

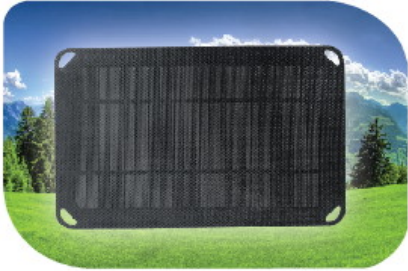

The POWERplus Gibbon is a high quality solar charger with built-in voltage converter which generates an output of 5V (USB).

The ETFE layer protects the solar cells from scratching, dust and water and guarantees a durable product suitable for tough conditions.

The design is easy to carry and light weight.

The Gibbon has a solar cell capacity of 5W, tested under STC (standard testing conditions).

This product has an average maximum output of 3.5W in sunny conditions.

Durable ETFE solar cell

Integrated bag with zipper

Integrated stand for more efficiency

Integrated 5V/1A max. USB output

Holes on sides for easy mounting

Technical details:

Power	5W (+/- 10%)
Average power output	3.5W
USB output	5V (0.7A)
Size	26 x 16 x 2 cm
Weight	256 gr.
